

Course Viewer CBT Learning Management System

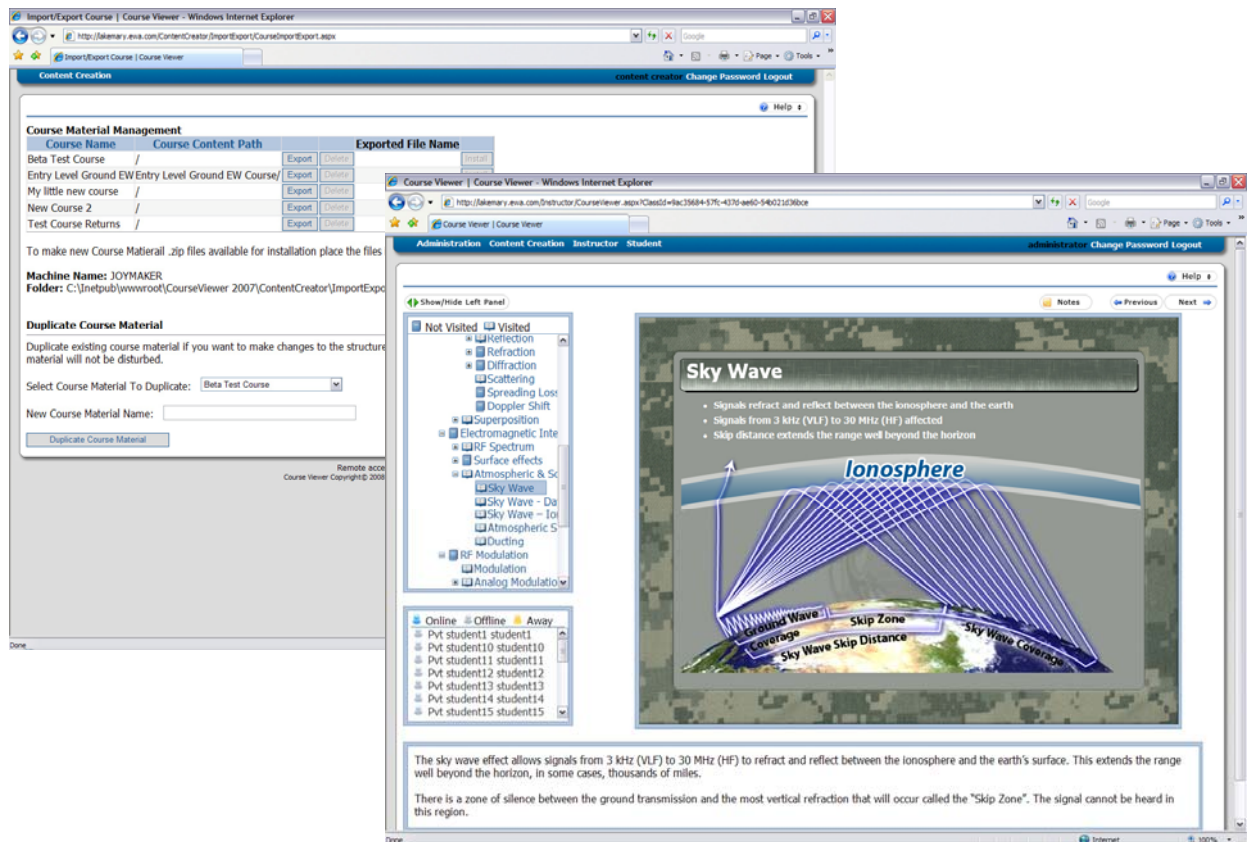

Description

Course Viewer is a Computer Based Training, Learning Management System (CBT-LMS) harnessing Web Based Technology to bring a superior online teaching experience. Course Viewer is unique in that it can be used in either an instructor led or stand-alone learning environment with no change in configuration.

A Flexible LMS

Course Viewer was designed as a web server application that requires no client side installation. The student and instructor stations are interactive web pages; the only installed portion of the system is on a single machine located anywhere on the classroom network. Key features include:

- Web-based
- One installation per User Group
- Compatible with most browsers
- Stand-alone or instructor led
- Student tracking
- Supports multiple courses
- Supports custom assessments
